OBJECTIVES

Web Designer, Creative/Art Director, Graphic Designer, UI Designer (*Web Design, HTML, CSS, Flash*)

GOALS

"Work as a front end developer/designer in an energetic, collaborative, and inspiring environment where I can use my current skills, motivation, and enthusiasm to contribute to the success of the firm while continuing to enhance and further develop my skill set and career"

EXPERTISE

▪ Web Design

HTML 4/5, CSS 2/3, W3C Standard XHTML

- Design, develop and maintain UI, web pages and sites acting as a creative designer.
- Translate wireframes and design comps into flexible and reusable XHTML/CSS interfaces.
- Work with development team to integrate UI with other tiers in the multitier web-based applications using XHTML, CSS, Flash, XML, PHP and JavaScript (jQuery, Mootools and other libraries).
- Implement/ensure cross-browser/cross-platform UI compatibility.
- Continuous upgrading of existing website code and design to current web standards with proper use of W3C standard based HTML and CSS along with graphic optimization.

Photoshop, Flash, Illustrator, Fireworks, Dreamweaver CS3/4

▪ General

Microsoft Windows, Linux, Mac Operating Systems

RECENT PROJECTS

1. www.jivanduduk.com - Design, HTML/CSS Coding, Flash, Blog implementation with custom template design.

This site has been highlighted in dozens of clean CSS design and design inspiration catalogs:
